REFLECTIVE FINISHING POWDER WITH PEPTIDES

Reflective Finishing Powders, made with skin nourishing actives, have been infused with illuminating mineral pearls to finish skin with a natural sheen and outer glow. The surface treated minerals, high-tech velvetizers and optical diffusers create a silky texture and un-powder finish that will not settle into lines. Powders allow light to bounce across the skin's surface and diminish fine lines and wrinkles. These powders contain a water shuttle time release microfilm that hydrates the skin. Loaded with Diamond Complex and Diamond Peptides that penetrate, protect and prolong cell function while creating a silky smooth soft focus, line diffusing affect.

AFRICAN RED TEA BOTANICAL GEL CLEANSER WITH PEPTIDES

A uniquely rich, creamy and light foaming cleanser melts away dirt, oil, and makeup without stripping the skin of essential moisture.

This creamy, light foaming, antioxidant-rich cleanser gently cleanses, nourishes, and hydrates. It deeply purifies and pampers skin, infusing delicate nourishment with **African Red Tea (Rooibos Extract)**, and a youth-restoring antioxidant to strengthen skin.

Formulated with **Acetyl Hexapeptide-8**, which is also known as **Argireline**, is a peptide compound that is used in skin care to reduce the appearance of wrinkles brought on by repeated facial expressions. **African Red Tea (Rooibos Extract)** is rich with the enzyme **superoxide dismutase** - an excellent anti-aging substance and a powerful anti-oxidant. Superoxide dismutase is necessary for the production of healthy skin-producing cells and also fights wrinkles by neutralizing the free radicals.

Poppy Seed Extract instantly firms the skin while **Prickly Pear Extract's** high content of water-binding compounds makes it a powerful humectant that attracts and retains moisture onto the skin. High in **B vitamins** and **vitamins A and C**, it also contains the key active **piscidic acid**, a powerful antioxidant that prevents the formation of free radicals and protects the skin from oxidative stress. **White Lily Extract** fortifies, protects, moisturizers and regenerates all skin types due to the high level of **saponins** and **polysaccharides**.

DOES NOT CONTAIN SULFATES, PHTHALTES OR PARABENS.
