FW-2021/22

Things are looking up for Fall 2021 so it is no surprise color is one of the biggest makeup trends for FW 2021/2022. **The rich shade of the season is lilac shadow.** The coolest thing about this color? You can pair it with full faced makeup look or a minimal makeup vibe. A pop of color gives you lots of room to play around from soft pastels to bold brights.

As we adjust to life beyond the face mask, we are loving the slow reemergence of glam!
